Custom Character Cutscene

Thanks — your cutscene is being made by hand.

This file is just the guide. Your actual cutscene is made from scratch for you, so it can't be an instant download — it comes to you by Etsy Message.

WHAT HAPPENS NOW

1. I read your character description from the order.
2. I build 3-4 versions of the scene and pick the strongest one.
3. I animate it, check every frame, and send you a preview.
-> within 3-5 days, via Etsy Messages.
4. Happy? You get the final files. Not quite? One revision round, on me.

WHAT YOU'LL RECEIVE

- A cinematic 5-second animated clip (MP4, vertical 9:16)
- The high-resolution still it was built from (print-ready)

DIDN'T DESCRIBE YOUR CHARACTER YET?

No problem — just reply to the order with a few sentences: name, race, class, armour/weapon, personality, and the moment you'd like captured. The more specific, the better it lands.

HOW IT'S MADE (honestly)

AI does the heavy lifting (Seedream + Kling), then I personally rework it until it's actually worth looking at. No autopilot, no janky hands. If it doesn't look right, it doesn't get sent.

Questions? Just message me on Etsy. I read everything.

Roll high,
Marco - EndoCraft
