

ENDOCRAFT

YOUR SHOW. OPENING CREDITS.

how your custom stream intro gets made

1

TELL US ABOUT YOUR SHOW

Reply via Etsy Messages (or hello@endocraft.app, with your order number) and include: your show's **name and tagline**, the campaign's **villain and world**, 3–4 **key moments or places**, the **tone** you're going for — and a link to an episode. A few sentences each is plenty.

2

PREVIEW WITHIN 5–7 DAYS

You'll receive a 20–40 second cinematic animated intro — scored, narrated with your show's name, with title card and end card matching your branding — as a preview via Etsy Messages.

3

TWO REVISION ROUNDS

Tell us what's off — pacing, scenes, wording, tone. We refine until it feels like *your* show. Final delivery: **16:9 and 9:16** video files plus all high-resolution stills (thumbnails, channel art, social).

Gifting this to your favorite show? Just write GIFT in the personalization field — whenever they're ready, they message us with the order number. No deadline, no pressure.

COMMERCIAL USE LICENSE

Your intro comes with a commercial use license: use it on Twitch, YouTube, Spotify, and anywhere your show lives — including monetized channels. Crafted AI-assisted, personally reviewed and reworked until it's broadcast-worthy. Compatible with any TTRPG — not affiliated with Wizards of the Coast.
