

ENDOCRAFT

THE FALLEN HERO

Every hero deserves an ending worth remembering. Here is how we build theirs.

1

TELL ME ABOUT THEM

Reply to your order via **Etsy Messages** (or use the personalization box at checkout): their name, race and class, what they looked like, how they fell — and one honest line about who they were at your table. Sessions survived, last words, the epitaph you'd carve: everything helps. The more honest, the better the memorial.

2

I BUILD THE MEMORIAL

Within **3–5 days** you'll receive a preview: the cinematic scene of their final moment, and their Fallen Hero keepsake card — name, class, campaign, sessions survived, cause of death, epitaph. Every image is personally reviewed and reworked until it's worthy of the character. No janky hands, no "close enough".

3

THE SEND-OFF

Happy? You receive the final high-resolution files — frame them, set them as a phone background, pin them to the party Discord. Not quite them yet? **One revision round is included**, no questions asked.

Buying this as a gift for a grieving player? Page 2 of this PDF is a printable card you can hand them. They send me the details themselves — whenever they're ready to talk about it. There is no deadline.

Questions or a broken file? hello@endocraft.app — real person, real answers, fixed within hours.

ENDOCRAFT

IN MEMORIAM

*This card is good for one Fallen Hero memorial –
a cinematic scene of your character's final moment,
and a keepsake card to make it official.*

TO REDEEM — when you're ready: message **EndoCraft on Etsy** or write to
hello@endocraft.app and tell me about them. The Etsy order number is your code.

Take your time. They're not going anywhere.
